Your new carer should arrive between 12 noon and 2pm on their first day.

The Care Organisation will ring your live-in carer in the morning to confirm the estimate time of arrival and then we will inform you.

**We understand that someone else moving into your home can be stressful and possibly unnerving, but as part of the recruitment process, we ask our carers to provide a short video, so you will already know what your carer looks like and some information about them.**

When your carer arrives, we suggest that you & your carer sit down together with a cup of tea, and you can explain the rules of the house.

Go through your routine and your expectations, for example, what time do you get up, what days do you like to go out.
